Gaza – Ma'an – Hamas' armed wing, the Al-Qassam Brigades, announced the death of its co-founder in exile Mahmoud Al-Mabhuh, who died of terminal cancer in a hospital in the United Arab Emirates on Wednesday.

The Al-Qassam leader, a refugee who lived the Jabaliya Refugee Camp until he left Gaza for Dubai, was behind a mission that successfully captured two Israeli soldiers, a statement from the brigades said.

Al-Mabhuh captured two Israeli soldiers, Elan Sa'dun and Avi Sbotas, who were killed in the early 1990s by Al-Qassam fighters. "The soldiers were killed in military action following their capture," a statement said.

Assassinated illegal arm dealer, responsible for death of hundreds of civilians, including children, used Dubai as transshipment base for weaponry transfer. Dubai police must investigate his contacts in Dubai. Looks like Dubai police is hiding something and looking for "escape goat".
